

# Clorox® 4 in One Disinfectant & Sanitizer

## Creating a Healthier Environment Has Never Been Easier

### Kills Bacteria and Viruses on Hard Surfaces

EPA-registered to kill bacteria, viruses and fungi on hard, nonporous surfaces. This includes viruses that cause cold and flu, bacteria associated with food poisoning, and antibiotic-resistant bacteria, such as MRSA\*.

### Kills Bacteria on Soft Surfaces in 30 Seconds\*

Surfaces such as curtains, mattresses and cushions can become contaminated with pathogens. Don't be fooled by products that merely freshen fabrics — Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to sanitize soft surfaces.

### Reduces Allergens<sup>†</sup>

Clorox® 4 in One Disinfectant & Sanitizer is effective at reducing key common allergens.<sup>†</sup> While these allergens can cause all-too-common allergies, they are also triggers for asthma. Asthma is one of the leading causes of school absenteeism and results in over 10 million missed days of work in the U.S.<sup>2</sup>

### Sanitizes the Air and Leaves a Fresh Scent

While other products may just cover up odors, Clorox® 4 in One Disinfectant & Sanitizer kills 99.9% of odor-causing bacteria in the air to help eliminate the source.

Case UPC: 31043  
12/14 oz.

**Works on HARD SURFACES Including:**

Rubbery Plastic    Hard Plastic    Stainless / metal

**Did You Know?**

Illness-causing bacteria, including antibiotic-resistant strains such as MRSA and VRE, can survive on soft surfaces from 20 to 90 days.<sup>1</sup>

**Works on SOFT SURFACES Including:**

Fabric    Bedding    Flooring

\* Per EPA approved Master Label 67619-29

† cockroach matter, dustmite matter, dog and cat dander
