

Formula 409[®] Cleaner Degreaser Disinfectant

Count on Formula 409[®] to spray away tough grease & grime

Combines the deep-cleaning power of a degreaser with the anti-streaking ingredients of a glass cleaner to get the job done quickly and easily. CloroxPro[®] Formula 409[®] is a versatile spray that dissolves tough soils easily.

Let Clorox sprays do the work!

WHY IT MATTERS: If left untreated, grease can quickly build up on surfaces and become hard to clean. Grease can clog drains, pose safety risks and harbor bacteria and odors. Grimy residue can negatively affect the perception of clean in a facility or business.

Powerful Cleaner

- ▶ Removes 100% of grease & grime¹
- ▶ Starts dissolving grease on contact
- ▶ Streak-free formula
- ▶ Removes smudges and fingerprints, even on stainless steel

Clorox lab testing. The product was applied to the surface with the greasy handprint and left for 30s. The surface was then wiped gently with a paper towel to remove excess liquid.

Kills Germs While It Cleans

Kills 99.9% of bacteria and viruses, including *E. coli*, *Salmonella*, MRSA and flu viruses²

Efficient Spray Solution

- ▶ No mixing or diluting required, less time and error
- ▶ Smart-tube proprietary bottle technology. Spray every drop and reduce waste

1. When used as directed on hard, nonporous surfaces
2. Per EPA approved Master Label and when use as directed. See master label for complete list of organisms (EPA Reg. No. 67619-10)

Disinfection Efficacy Claims

Disinfection	Spray Contact Time
BACTERIA	
<i>Escherichia coli</i> (<i>E. coli</i>)	10 min
<i>Staphylococcus aureus</i> (Staph)	10 min
<i>Pseudomonas aeruginosa</i> (Pseudomonas)	10 min
<i>Salmonella enterica</i> (Salmonella)	10 min
<i>Staphylococcus aureus</i> (Staph)	10 min
VIRUSES	
Avian influenza A (H3N2) virus (Avian Reassortant) (Avian flu)	30 sec
Herpes simplex virus Type 2	30 sec
Human coronavirus (cold virus)	30 sec
Human immunodeficiency virus type 1 (HIV-1)	30 sec
Influenza A virus (Hong Kong) ([common] flu virus)	30 sec
SARS-CoV-2 (cause of Covid-19)	30 sec
FUNGI	
<i>Trichophyton mentagrophtes</i> (Athlete's Foot Fungus)	10 min
