# ProView®

*ProView* containers are an essential part of the delivery, takeout, and grab'n go experience.

Provides security, strength, and protection for safe and convenient transporting from the restaurant to home.

Featuring a black base and a clear lid, restaurant staff can conveniently verify orders quickly and accurately without having to open the container.

## Features:

- Premium look
- Clear top
- Microwave safe
- Vented lid
- Recyclable
- Reusable

# ProView®

combines the **BEST** of what food packaging should be!

ProView containers are offered in single, two, and three compartmented options. Curbside recyclable polypropylene material is accepted at participating recycling facilities.

ProView's single compartment containers allow for custom food arrangement. Three compartmented containers are precisely measured for portion control.

Two compartmented close-off containers fulfill needs of the home delivery, grab 'n go markets, suitable for made-to-order meals and leftovers.

For standard foodservice meals and leftovers, the medium and large close-off container options have 3 compartments in both the base and the lid to prevent food migration.

ProView provides security, strength, and protection for safe and convenient transporting from the restaurant to home.
